Attachments: WPS and Cert Regulations Status Update for PPDC May 21-22_draft 5.05.2020 RPK.docx

Thanks Shannon. Several comments/questions/suggestions. I'd like to see this one again before it goes to OGC for their review.

Resending – the revised version didn't save properly...so trying again.

Hi Steve, thanks for the comment – it's a good point but tight on space. I added this one line to each one pager (in the summary). Is that too prominent? How about the wording? Note, this was already OGC and FEAD DD (Jackie, copied) reviewed so just want to make sure that the edits are tracked.

Hi Carolyn,

Thanks for sharing, Carolyn! PRIA 4 contains a section dedicated to what EPA can and can't do with regard to the two rules. Would it be worth referencing how this effort addresses/adheres to the PRIA 4 language? Or flag as a question/comment for management review? I know that this language was part of the deal that got PRIA 4 to the finish line and I don't want those stakeholders to feel that we aren't paying attention to those requirements as we move forward.

If not as part of this document, maybe I fold it in to the PRIA one-pager.

SEC. 7. AGRICULTURAL WORKER PROTECTION STANDARD; CERTIFICATION OF PESTICIDE APPLICATORS.

(a) IN GENERAL.—Except as provided in subsection (b), during the period beginning on the date of enactment of this Act and ending not earlier than October 1, 2021, the Administrator of the Environmental Protection Agency (referred to in this section as the “Administrator”)— (1) shall carry out— (A) the final rule of the Administrator entitled “Pesticides; Agricultural Worker Protection Standard; and (B) the final rule of the Administrator entitled “Pesticides; Certification of Pesticide Applicators” (82 Fed. Reg. 952 (January 4, 2017)); and (2) shall not revise or develop revisions to the rules described in subparagraphs (A) and (B) of paragraph (1).

(b) EXCEPTIONS.—Prior to October 1, 2021, the Administrator may propose, and after a notice and public comment period of not less than 90 days, promulgate revisions to the final rule described in subsection (a)(1)(A) addressing application exclusion zones under part 170 of title 40, Code of Federal Regulations, Deadline.

(c) GAO REPORT.—The Comptroller General of the United States shall— (1) conduct a study on the use of the designated representative, including the effect of that use on the availability of pesticide application and hazard information and worker health and safety; and (2) not later than October 1, 2021, make publically available a report describing the study

under paragraph (1), including any recommendations to prevent the misuse of pesticide application and hazard information, if that misuse is identified.

Thanks, Steve

Here's our updated one pager on the rules – but still draft. I've sent this to my DD for review and to send forward to OPP IO by tomorrow.

If you have early input, just let me know. Thought it may be helpful for Steve to see what we have included. We didn't focus on PRIA on this document.

Shannon – is either of these rules on the agenda for the PPDC?

I agree that a short meeting to discuss the PRIA side of things would be helpful.

Thanks,
Carolyn

I'm working on comparing your PRIA presentation and the Worker regs !-pager from last year. I think the idea is a summary version of the presentation you gave last year.

Thank you!
Shannon

Hi Shannon,

I can provide a PRIA one-pager. Additionally, is the intention to have an agenda item specific to the PRIA 4 reporting requirements for work protection activities? This was presented in spring 2019 and there was the recommendation to create a workgroup that they got shelved with the transition of PPDC membership. Thinking about what would need to be prepared for that, and would that be part of this effort? Attached is the PRIA 4 slide deck that was used at the spring meeting, with the WPS PRIA 4 stuff at the end.

Thanks! Steve

Hi Steve,

I just wanted to make sure you saw this. I hope you're doing well. I miss the folks on our row. You, Michelle, Denise and I should do a Skype call.

Thank you,
Shannon

Good morning,

Below are lists of/links to the one-pagers that were done for the last two PPDC meetings, per the discussion at the Staff meeting yesterday. Rick requested that we have refreshed versions for issues that have progressed since the last 1-pagers were provided. Additionally, he requested 1-pagers for these additional 3 topics:

- Non-animal testing (Anna)
- Use of surface water monitoring data in drinking water assessments (EFED)
- PRIA updates (Steve S.)

Any others you think the group should see?

Timelines: The sooner the better of course for OCSPP IO review. Please send them by May 6th at the very latest to leave time for review and revision and posting to the PPDC website. Please send them over as you have them ready and let me know if they've already been approved by the OCSPP IO.

Finally---PLEASE let me know if I can be of help with these, consolidating data from different sources, etc. Thank You!

May 2019 1-pagers (note that there was no Fall 2019 meeting)

- [Endangered Species Act Update \(PDF\)](#)
- [Chlorpyrifos Update \(PDF\)](#)
- [Worker Protection Standard \(WPS\) and Certification and Training Rule Update \(PDF\)](#)
- [Dicamba Over-the-top Use in Cotton and Soybeans Update \(PDF\)](#)
- [Glyphosate Update \(PDF\)](#)
- [Neonicotinoids Update \(PDF\)](#)
- [Pollinator Protection Activities Update \(PDF\)](#)
- [Registration Review Update \(PDF\)](#)
- Link to page with agenda and all materials: <https://www.epa.gov/pesticide-advisory-committees-and-regulatory-partners/pesticide-program-dialogue-committee-meeting-6>
-

October 2018 1-pagers

- [Chlorpyrifos Status Update \(PDF\)](#)
- [Endangered Species Act: Section 7 Consultations and Next Steps \(PDF\)](#)
- [Worker Safety Regulations Status Update \(PDF\)](#)
